

Press release

Scarabee consolidates AGV partnership with John Bean Technologies.

Scarabee exclusive AGV system integrator for JBT in the Netherlands

Rotterdam - November 2008. John Bean Technologies en Scarabee logistic systems consolidated their existing close relationship concerning Automatic Guided Vehicles by signing a more exclusively partnership contract.

Scarabee, known for automatic warehouse systems, did already use the John Bean Technologies equipment for AGV solutions. Signing the partnership contract results in extension of further more sales, implementation and service activities for JBT at the Dutch market by Scarabee. JBT (formerly known as FMC) is, with over 250 vehicles / year, one of the most important AGV suppliers world wide.
